# In Salon Treatments

#### Clarifying Shampoo

Deeply cleanses the hair, removing the heaviest of product residues, dirty or oily hair. Promotes the dilation and cleansing of the cuticles.

Enriched with cocoa extract and coconut oil to leave the hair clean and shiny, ready to for the treatment

Sizes Available: 1000ml - 300ml

#### Nanoplastia

Nanoplastia is a revolutionary, thermal sealing, formaldehyde-free product with up to the minute technology. It is capable of completely straightening the hair for up to five months. It can also be used as an anti-frizz service.

Our product uses high technology silsoft combined with blend of natural sealing resins and clyoxylic acid, promoting the uniformity of the cuticle surface, capillary sealing and softness and shine.

You can colour the hair and even lift up to 1 level, immediately after the service. The hair can be washed the same day after the treatment. You can style hair as desired, and it will not damage the effect of the treatment.

- Straightens hair 100% for up to 5 months.
- Can be used on all hair types.
- Smooth and high-shine finish.
- It does not produce a strong smell.
- Won't burn eyes or affect the respiratory system.

Sizes Available: 300ml - 1000ml

#### Smooth Mask

Developed with polyphenols from Tamarind Mousse. Conditions and promotes hydration in all hair types. Excellent emollient and lubricant action contributes to an intense anti-frizz and sealing action. This helps with protein fibril alignment, providing softness and shine, whilst promoting a smoothing action on the cuticular surface.

Acidic pH balances the hair's pH, leading to the sealing of the cuticles, thus providing smoothness, reducing frizz, and volume.

Can also be used as a top-up service for nanoplastia clients after 6 -9 weeks.

Size: 1KG

#### Reconstruction Mask Pro

Brazilian Nano Reconstruction Mask Pro promotes intensive repair of the hair fibres, strengthening the strands from the inside. Its composition is rich in Flaxseed, Wheat Protein, Acai Berry and Arginine, not only restoring the health of the hair, but also leaving it hydrated, more resistant and protected.

- Apply the mask on-damp hair, emulsify and rinse, repeat the application if necessary.
- Remove the excess water from the threads, apply the mask strand by strand covering the strands, and let it act for 5 to 10 minutes, after the rinse pause time.
- Apply the Brazilian Nano Repair Conditioner to further condition and facilitate the untangling of the threads after rinsing.

Sizes: 500ml

#### Repair & Protect

This two-phase treatment is enriched with an exclusive combination of vegetable proteins, amino acids and keratin. A truly amazing hair reconstructive treatment.

Exclusive formula and active ingredients provide nourished and hydrated hair, whilst rebuilding the internal structure by filling the open spaces of the hair cuticles, resulting in a reduction in porosity. This is a must for dry, damaged hair.

#### Step 1

- Reduces breakage
- Restores moisture
- Improves hair texture
- Strengthens hair
- Anti-porosity action

#### Step 2

- Improves elasticity
- Rebuilds hair bonds
- Deep repair
- Deep hydration
- Cuticle sealing

Sizes: 2 x 500ml

# In Salon & Home Maintenance

#### No Frizz

This product really does what it says on the tin. SILSOFT CLX-E is smart technology with a special silicone giving a smooth effect and maintenance for all hair types. Continuous use provides alignment of the hair fibre, repairs, helps reduce drying time, and provides thermal protection.

When heat-activated with the use of a dryer or flat iron, it maintains a long-lasting smooth effect on the hair and a significant reduction in frizz even after washing. Contains excellent natural moisturisers, protecting the hair from free radicals and oxidation, preventing accelerated hair aging, and improving the appearance of the hair.

Sizes: 250ml

#### Argan Oil Shampoo

Enriched with argan oil, rich in fatty acids, and essential nutrients, this product gently cleanses the hair, while its high moisturising power transforms dull and brittle hair, leaving it shiny and hydrated.

- Apply on wet hair, massage and rinse.
- Protects the hair from chlorine after swimming.
- Promotes hydration and shine.

Size: 500ml

#### **Argan Oil Conditioner**

Enriched with argan oil and rich in fatty acids and Glycerine, Argan Oil Conditioner penetrates the hairs cortex, providing strength and resistance to weak, damaged hair. It also revitalizes the cuticle, fortifying the hair and promoting nutrition. The product will return moisture lost in chemical processes, leaving hair naturally smooth and soft.

Apply after using Brazilian Nano Argan Shampoo, massage in, leave for 2 – 3 minutes and rinse fully. Leave it on for 10 minutes for better results in terms of smoothness and shine.

Size: 500ml

#### Repair Shampoo

Brazilian Nano Repair Shampoo with double action formulation, it deeply cleanses and nourishes, while maintaining the integrity of the hair fibre.

Enriched and rich with Argan Oil, Pracaxi Oil (vegetal) and Acai Extract from the Amazon that hydrates and nourishes the hair providing softness and shine.

- Apply to wet hair, massage and rinse.
- Ideal for Daily Use
- Reconstruction & Nutrition

Sizes: 500ml

#### Repair Conditioner

Brazilian Nano Repair Conditioner combines advanced technology and natural ingredients, such as Ojon Oil, Silk Protein, Ceramide and Shea Butter, to deeply nourish strands, sealing the cells, combating frizz and restoring a natural shine.

- Apply after using Brazilian Nano Repair Shampoo.
- Comb through or massage into the hair, leave up to 3 minutes and rinse fully.
- Ideal for daily use.
- Reconstruction & Nutrition.

Sizes: 500ml

#### Repair Mask

Brazilian Nano Reconstruction Mask for home use. Promotes intensive repair of the hair fibres, strengthening the strands from the inside. Its composition is rich in Flaxseed, Wheat Protein, Acai Berry and Arginine not only restoring the health of the hair, but also leaving it hydrated, more resistant and protected.

- Apply the on-damp hair, emulsify and rinse,
- repeat the application if necessary.
- Remove the excess water from the threads, apply the mask strand by strand covering the strands, let it act for up to 5 to minutes and rinse thoroughly
- Reconstruction & Nutrition

Sizes: 300ml

#### Repair & Protect Mousse

This lightweight conditioning mousse will repair and protect your hair, without weighing it down. It is suitable for all hair types, perfect for thin dull hair, great for colour retention and promoting shine.

The innovative COLLAGEN based formula, means that when the ingredients are heat activated by styling tools, they strengthen the hair's capillary structure to prevent breakage.

Plus acting as a treatment for reinforcing weak hair, re-densifying and restoring vitality. The Hydrolyzed Collagen improves the hair by providing Amino Acids to seal damaged follicles.

Antioxidants will help fight free radicals, improving cuticles and preventing ageing. They also help control frizz, add shine and create a smoothing effect.

- After shampooing with your chosen Brazilian Nano Shampoo and towel drying your hair.
- Shake the can well, point it downwards and get your desired amount in your hand, then apply to your hair, distributing it thoroughly, then comb or brush through.
- Leave-In, do not rinse out.
- Remove the excess water from the threads, apply the Mask strand by strand covering the strands, let it act for up to 5 to minutes and rinse thoroughly

Paraben Free, Thiazolinon Free, Colouring Free, Mineral Oil Free

Size: 200ml

#### **Protector Prime**

This multi-functional product was made using vegetable proteins, shea butter and amino acids. Great for repairing split ends, reconstructing the hair, and bringing back shine and manageability, leaving it soft and smooth.

- To use as a treatment for damaged or aging hair simply spray product on after shampooing and before applying a mask (for extra conditioning). Stylists can even use this as a cutting tool.
- If using as a thermal protectant, simply shampoo the hair, towel dry, spray the product on, comb it through, blow dry, and style as desired.

Size: 250ml

# DANZILAN HAIR SERUM

#### Hair Serum

Contains botanical extracts such as green tea, chamomile and rosemary associated with bioester oils from rice wax and turmeric roots. Bioprotective antioxidant nourishes, provides shine and softness to the hair. It also improves natural colour or tinted hair with excellent thermal and solar protection.

- Simply spread in the hands and distribute throughout lengths and ends of dry or towel-dried hair.
- It can be used before blow drying and flat ironing.

Size: 100ml

#### Curl & Style Cream

Formulated with special resins and containing organic Coconut Water and Aloe Vera. It adds elasticity and compactness to curls, creating body and structure, whilst nourishing and adding moisture.

Creates well-defined, voluminous and bouncy curls, or enhances natural waves with great longevity. It can be used as a styling cream for all styles on towel dried or dry hair.

Pump out the desired amount and massage product into fingers, distributing over hair from roots to ends. Style as desired. Made with Organic Coconut Water & Aloe Vera

Size: 150ml

#### Style & Hold Spray Wax

This lightweight yet firm modelling spray wax will define, texturise, and hold your hair in place, without weighing it down.

It is perfect to achieve natural movement and definition for any style. It can be used as an all over hair styling spray, or in certain areas for precise definition. Simply shake well and apply to damp or dry hair.

- Paraben Free
- Thiazolinon Free
- Colouring Free
- Mineral Oil Free

Size: 200ml

#### **Anti Humidity Spray**

Panthenol maintains the right degree of moisture, combined with special polymers making this spray effective and specific for creating a protective sheath over the hair against humidity. It is non-greasy, non-sticky, and creates an anti-frizz shield.

Perfect in humid climates to protect and maintain your style. Simply shake well and apply to your hair as a final layer before going out. It also has a very light fixing power.

- Paraben Free
- Thiazolinon Free
- Colouring Free
- Mineral Oil Free

Size: 200ml

#### Flexible Hold Volumising Hairspray

This Texturising Hairspray gives your look long-lasting control and high shine.

It dries quickly and sets naturally without leaving residue. Excellent for all types of hairstyles, with an extra strong hold. It is also ideal as a working spray.

The special dispensing valve gives you maximum control to create the styling you want.

Using vegetable alcohol, latest generation resins and polymers and aloe vera, it provides a marked moisturising action. It also contains green tea with protective and antioxidant properties, along with panthenol (ProVitaminB5) for moisturising and soothing.

- Paraben Free
- Thiazolinon Free
- Colouring Free
- Mineral Oil Free

Size: 300ml

#### Polished Shine Spray

A combination of special polymers and argan oil (from organic farming) works instantly, giving hair a shiny and silky finish. This spray has an ultra-light formula - the argan oil nourishes the hair whilst preserving its internal moisture.

Using vegetable alcohol, latest generation resins, and polymers along with aloe vera, this product provides a marked moisturising action. Simply shake well and apply to the hair as a final touch.

- Paraben Free
- Thiazolinon Free
- Colouring Free
- Mineral Oil Free

Size: 200ml

# Accessories

#### Smoothing & Detangling Brush

A specialist brush for smoothing and detangling,

6 Claws Shorter Boar Bristles Longer Man-Made Bristles Width Adjustment Clip

It is more conducive to massaging the hair and scalp, as the bristles are more numerous and denser, and the brush is contoured to the shape of your head. This means that the contact surface with the hair is wider and more complete, and the massage of the hair follicles is more delicate, making it more comfortable when brushing your hair. Because the brush can separate, when brushing long hair, it will not hurt the scalp due to hair entanglement. The width adjustment clip means you can tailor it for your hair and also gives the brush, far greater stability. Ideal for smoothing, detangling, and helping to promote shine.

#### Available in Mint and Black

Clip

Client Cape

A lightweight and protective material for your client, with a comfortable and easy to use zip fastening.

Stylist Apron

Ideal for promoting services and protecting the stylist.

#### NANOPLASTIA V KERATIN TREATMENT

#### Nanoplastia

A new type of straightening, Nanoplastia is a new hair alternative to a keratin treatment with a more organic formula. Nanoplastia achieves the same or an even better result than a Keratin treatment, which is to permanently straighten hair.

Nanoplastia treatment restores dry and porous hair, leaving it with a bouncy, soft and silky appearance. The chemical composition is made up of a vegetable protein, and a blend of natural sealing resins and lactic acid that promote uniformity of the cuticle surface. The products for Nanoplastia are saturated to the maximum of beneficial substances and supplemented with harmless chemical elements that facilitate penetration into the hair and interact at a cellular level. The formula for this procedure is rich in vegetable protein, which under the action of temperature, penetrates the cortical layer of the hair. As a result, the structure of the hair becomes strong, and the nutrients are integrated in the hair, strengthening, and healing it from the inside.

#### Benefits of Nanoplastia:

- 1. Does not harm the health of the professional.
- 2. The acid has no smell, does not fume, create burning in the eyes or any type of discomfort for the professional and client.
- 3. Does not deform the hair fibres.
- 4. Allows the neutralisation of oxidative points through nutrition.

#### Keratin

Some Keratin treatments have substances that can be aggressive, leading to possible damage to health and hair such as deformations in the hair fibres, making the strands more fragile and brittle.

For those containing formaldehyde or derivatives of, when the heated formaldehyde linked to the cuticle proteins, to the hydrolysed amino acids in the keratin solution, can cause the hair to become plasticised, making it impermeable. This can making the strands more fragile and brittle, due to the fact that the strands become platy, preventing hydration of the hair strand.

# **Brazilian Nano**

#### **Ingredients**

- Butyrospermum Parkii (Shea) Butter: A natural ingredient that helps to moisturise and nourish the hair.
- Tamarindus Indica Fruit Extract: An extract derived from tamarind fruit which is native to tropical regions of Africa but is also widely cultivated in many other parts of the world, including Asia and Latin America. Known for its moisturising properties.
- Cocos Nucifera (Coconut) Oil: It is a natural oil that helps to moisturise and nourish the hair.
- Avena Sativa (Oat) Meal Extract: It is an extract derived from oats, which is known for its soothing and moisturising properties.

#### **Tree Resins**

- Commiphora Myrrha Resin Extract: This resin comes from the commiphora myrrha tree, which is native to regions in Africa and the Arabian Peninsula.
- Myroxylon Balsamum (Balsam Tolu) Resin: The resin is derived from the Myroxylon balsamum tree, commonly known as the Tolu balsam tree. It is found in Central and South America.
- Styrax Benzoin Resin Extract: The resin comes from the Styrax benzoin tree, also known as the benzoin tree. It is native to Southeast Asia.

These plants have been used for their aromatic and therapeutic properties for centuries. Resins used in hair help to relax and loosen the hair's natural curl or wave pattern, making it easier to straighten. These resins also provide a protective coating on the hair strands, which can help to reduce frizz, seal in moisture, and provide shine. Additionally, resins can enhance the overall smoothness and manageability of the hair. To become a certified user and/or stockist, simply contact us on one of the options below.

#### Let's Talk Silicones

Although silicone has its disadvantages in our industry there's nothing dangerous about this hair care ingredient when used correctly. In fact, it plays an important role combined with all the natural tree resins, and naturally sourced ingredients.

#### Silsoft

Silsoft is a silicone-based conditioning agent which is required to help improve the smoothness, softness, and manageability of the hair. Silicones like Silsoft can provide protective barrier helping to make Brazilian Nano last for 4-6 months depending on hair density & texture.

#### Polysilicone-29

Polysilicone-29 provides shine, detangling and de-frizzing benefits to the hair. It is quaternary ammonium compound that forms flexible films with mild conditioning benefits in rinse off and styling applications. It provides instant detangling and also makes it so much easier to comb your hair. In addition, it adds a layer of thermal protection to your hair when using a hairdryer or straighteners.

# How To Use

#### **Clarifying Shampoo**

- 1 Apply the required amount of BN Clarifying Shampoo to damp hair
- 2 Gently massage the strands. It is not necessary to rub the scalp
- 3 Repeat the application if necessary

#### Nanoplastia

- 1 Apply to dry hair: (If the client arrives with a build-up of products, wash and dry the hair completely before applying)
- 2 Divide the hair into 4 sections.
- 3 With a brush, apply the product a 1/4 inch away from the scalp through to the ends.
- **4** Let it process for 30 minutes for anti-humidity and frizz reduction.
- 5 For smoothing and straightening 40 to 60 minutes (60 minutes on very resistant hair)
- 6 Thoroughly rinse only with water, completely removing the product from the hair.
- 7 Blow-dry the hair completely, brushing the hair so that it is well aligned.
- 8 In small and thin sections, flat iron the hair slowly between 7 to 12 times.
- 9 If applying to blonde or high-lifted hair then add 1 part of Charcoal Conditioner, to 4 parts of Nanoplastia.

Instructions if using on blonde or high-lifted hair or colouring and smoothing on the same day.

- **10** Bleaching / High Lifting; First, bleach / high lift the hair, wash the hair completely to remove the bleach/ colour. Dry the hair 100%. Then apply Nanoplastia, adding our charcoal conditioner if required (as 9)
- **11** Colouring: After the Nanoplastia treatment is completed, wash the hair with shampoo and then do not use conditioner (make sure that is NO PRODUCT OR RESIDUE in the hair) and then colour the hair as normal. You may lift the hair up to 1 level
- 12 Damaged Hair: You may still complete a Nanoplastia treatment, however, firstly, wash the hair and then towel dry.
- -Apply RP (Repair & Protect) Stage 1 (Anti-Porosity) and process for 10 minutes.
- -Completely rinse out the RP Treatment.
- -Blow-dry the hair 100% then proceed with your Nanoplastia treatment.

Always Wear Protective Gloves When Applying – Skin Test Prior To Application.

# Katy Woolman

Sensari Hair & Beauty

99

On Afro Caribbean hair (textured hair) the results can be even longer lasting! This hair type doesn't have to be washed as much as Caucasian hair. Sometimes Afro Caribbean hair can be more fragile so assessing the hair before hand and maybe a strand test if in any doubt. Many have been used to chemical straightening which has caused breakage and brittle hair, so Brazilian Nano is so much better for their hair texture.

## How To Use

#### **Smooth Mask**

- 1 Wash the hair with Anti-Residue Shampoo
- 2 Dry the hair 100% and divide the hair in 4 sections
- 3 With a brush, apply the product a 1/4 inch away from the scalp, until to the ends
- 4 Let it act for 20 to 40 minutes
- **5** -Thoroughly rinse only with water, completely removing the product off the hair
- 6 Divide the hair into 4 sections and blow dry. Drying the hair 100%
- 7 In small and thin sections, flat iron the hair slowing between 3 to 5 times

#### No Frizz

- 1 For normal to thick hair: Shampoo hair, towel dry, spray on product, blow-dry, and style as desired.
- 2 For those with fine or thin hair: Spray product on dry hair, massage in, then, shampoo, blow dry and style as desired

#### **Repair and Protect**

- 1 Wash the hair with Brazilian Nano Clarifying Shampoo and towel-dry the hair.
- 2 Divide the hair into 4 sections and apply Step 1 (massaging the product into the hair).
- **3** Leave the product on for 10-15 minutes.
- 4 Do not rinse Step 1.
- **5** Divide the hair into 4 sections again and apply Step 2 (massaging the product into the hair).
- **6 -** Leave the product on for 10-15 minutes.
- **7 -** Rinse and style as desired.

#### **Reconstruction Mask Pro**

- **1 -** Apply the mask on-damp hair, emulsify and rinse, repeat the application if necessary.
- 2 Remove the excess water from the threads, then apply the Mask strand by strand covering the strands
- **3** Let it act for 5 to 10, after the rinse pause time.
- 4 Apply Brazilian Nano Repair Conditioner to further condition and facilitate the untangling of the threads after rinsing.
- **5** Rinse the hair again and style as desired.

#### **Home Maintenance**

To maintain and guarantee all Brazilian Nano treatments and services, use Brazilian Nano Argan Oil Shampoo and Conditioner.

Brazilian Nano styling and finishing products, will enhance your treatment or service, giving you longevity and amazing looking hair.

# Top Tips

#### Nanoplastia

- Make sure the hair has absorbed the product due to the variation in each hair type and porosity.
- Leave the hair very well moistened with product.
- No heat needed.
- Only put on a plastic cap if you are in a very dry environment.
- Some customers may notice 1 level of lift of their colour with this service, not all but some depending on client's hair colour and texture.
- We don't recommend colouring and smoothing on the same day if the customer doesn't have healthy hair.
- For dark colours, first smoothing complete service including passes of straighteners and then start the colour process.

#### **Smooth Mask**

- To avoid losing the curls, reduce the pause time to 20 minutes and do not use the flatiron, just dry with a hairdryer.
- No heat needed.
- Only put on a plastic cap if you are in a very dry environment.

#### **Education & Certification**

 Brazilian Nano comes with a full training and education programme, which leads to you becoming a fully certified stylist and/or salon. Our on-ongoing education, both online and in person, ensures your continued advancement with Brazilian Nano.

#### To become certified, you will need to:

- Either attend an online education session OR an in-salon education session.
- · Perform a treatment.
- Provide 3 images (before, during and after the treatment).
- Supply your salon consultation notes and include which techniques you used and why?

# Vicky Bryce

Uk Education Manager

"The Brazilian Nano Blow-Dry has transformed my client's life in amazing ways. She used to struggle with frizzy, unmanageable hair, which left her feeling frustrated. Now, her hair is smooth, shiny, and easy to maintain, cutting her styling time significantly.

This has boosted her confidence, allowing her to embrace her natural beauty without worrying about humidity or bad weather. The Brazilian Nano Blow-Dry has truly been a game-changer for her!"

## Claire

My hair has been so much easier to style, especially with how long and thick my hair is, it has halved the amount of time I've spent drying and styling my hair, making me not dread hair wash days anymore.

The after-care package with the shampoo & conditioner was a great added bonus.

They smell so nice. Also, the no frizz spray you recommended was the perfect product to use as the treatment was wearing off.

### Louise

Before I had this product put in my hair my hair would be really frizzy after washing and blow drying it Now I've had this product put in and I've washed it recently.

I haven't had to do much maintenance with it when blow drying it, it looked very smooth and felt very smooth as well as looking fresh and shiny.

Achieve ...

# Semi-Waves & Enrls

Smooth curls or waves for up to 3 months.

Combine the hair transforming power of Brazilian Nano Smoothing Treatment with Curlyo, a revolution in hair curling technology.

Curlyo's silicone based material is perfect to be used in conjunction with Brazilian Nano treatment that will leave your clients with smooth curls or waves for up to 3 months.

Curlyo is great for creating temporary curls with both BN No Frizz and Curl Cream.

# When Creating **Temporary Curls** with No Frizz or Other Brazilian Nano Products **OR** When Creating **Semi Permanent Curls** with **Brazilian Nano Thermal Sealing**

Ensure that there is not too much hair inside the Curlyo.

The Curlyo should always completely close with hair inside and the silicone tips and bottom flaps should touch together (you do not want to be able to see hair inside the Curlyo because they do not close fully). The smaller the amount of hair inside the tighter the curl pattern and the more hair inside (taking above point into consideration) the larger the curl.

When using the Brazilian Nano Thermal Sealing with the Curlyo use the same process for the hair amount as detailed above. On hair where you want to widen and lengthen someone's curl pattern that is naturally curly/wavy then have larger sections inside the Curlyo with Brazilian Nano Thermal Sealing inside.

When heating the Curlyo with Brazilian Nano Thermal Sealing on the hair, heat each curler for 25 seconds.

Leave for up to 40 minutes standing time after heating the last Curlyo is sufficient to give great results. The longer you leave them, the longer the curl will last. When wanting to create curl wave or increase wave formation using more rollers is best. Again, heat for 25 seconds. You can take a section of hair and then weave the section like foiling hair but thickish strands.

One of the set of weaves is wound one way into the Curlyo and the second set of weaves is wound the opposite way to the first. This gives a very subtle, even more natural look as the two sections are wound opposite ways.

This service will last up to 3 Months

For those wishing not to fully commit, you can create the same results, using the same process with the Brazilian Nan Smooth Mask. This service will last up to 6 Weeks

With All services, ensure the clients use the correct Brazilian Nano Aftercare, to maintain longevity.

#### Top Ten Tips

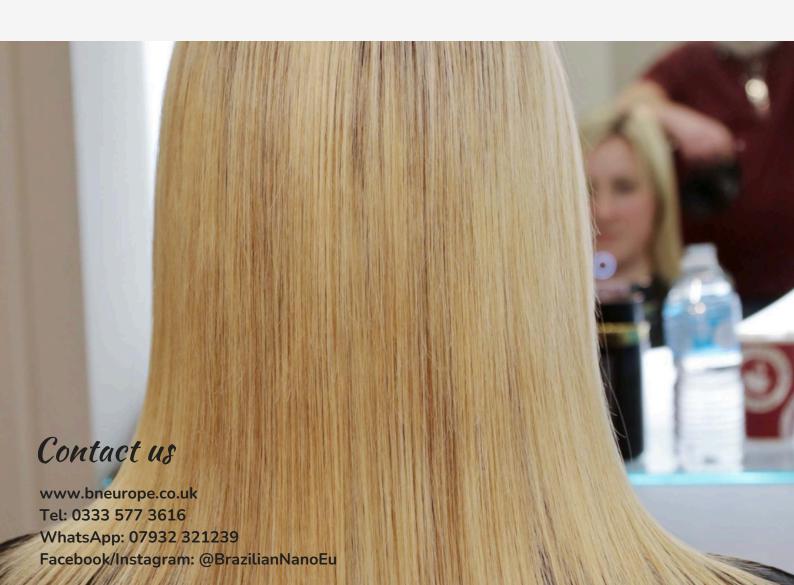

- Do not have too much hair inside the Curlyo.
- Ensure the Curlyo heater is turned up to full, so all 4 lights are lit.
- Ensure when applying the Brazilian Nano Thermal Sealing that the excess is combed off.
- Once wrapped, ensure each Curlyo is heated for 25 seconds.
- Use cotton wool under each Curlyo after heating.
- Allow 40 mins after heating the last Curlyo.
- Once removed before rinsing place hand underneath the hair push up and scrunch! (you immediately see the curls wave created).
- Rinse the hair thoroughly.
- Ensure to squeeze out any excess water.
- Apply your favourite styling product(s), scrunch curls up and either leave to air dry or diffuse.

Temporary Curls (up to 7 days or next wash) can also be created using Brazilian Nano No Frizz or Curl & Style Cream.

Simply apply your chosen product. Wind the Curlyo's in your desired curl pattern. Heat the Curlyo's for 25 seconds. Allow to cool (colour will change back to signify when ready). Finish your style as desire.
